

DES PDM 24 CLEAN

Cable entry plates for Food&Pharma applications

FEATURES

- For large number of cables without connectors
- Internal reinforcing frame
- Rounded edges
- UL94-HB
- Fixing with snap mounting or screws

The DES PDM CLEAN Family is mainly used in the food&pharma production thanks to the rounded shape without edges which avoids dirt accumulation and allows frequent washing. The cable entry plate can be fixed to the panel from the inside with four hidden screws or screwed on the panel. The holes location is guided by a laser printing which guarantees the front clean area during the operation. The first front membrane is lightly drilled with a small screwdriver, while the second parallel membrane acts as a reinforcement, ensuring a very high strain relief and water resistance.

Material: TPE, halogens and silicones free
Flammability: self-extinguishing acc. UL94-HB
Temperature: -40°C... +80°C
