

## Shield clamps with screw fixing with double cable tie secure

### FEATURES

- Suitable for a range of cables from 1,5 to 30 mm
- Possibility of obtaining shield grounding and strain relief functions with a single device
- Double cable tie
- Snap-in assembly, no need to use tools
- Constant pressure on the cable sheath without having to run tests and checks

The MSE shield clamps enable the cable shield to be grounded easily and effectively. They secure the strain relief function on the cable by fixing it with one or two cable ties. The shield clamp can be fixed with a M4 screw.

They secure the strain relief function in compliance with EN 62444 by fixing the cable it with one or two cable ties.

**Material:** spring steel, zinc plated

Not available for the german market
