SPP / SPG EMC

EMI/EMC small and large grommets

FEATURES

- Conductive grommets for cables from 2 to 35 mm diameter
- Single hole, multi-range, double and quadruple
- "Blind" version available
- UL94-HB
- Black color

The EMC grommets allow several shielded cables from 2 to 35 mm diameter to be routed in the DES EMC splittable frames.
The contact between the cable braid and the grommet is secured thanks to the grommet thickness.
The EMC grommets simplify the cable shielding application and conductive element adhesion.

Material: TPE with conductive element, halogen-free, silicone-free
Flammability: acc. UL94-HB
Temperature: -40°C... +100°C (static)
